

HUMAN FACTORS TRAINING

COURSE ALSO KNOWN AS:
HUMAN ELEMENTS; 2ND GENERATION BRM

Human factors/elements training helps identify specific issues affecting safety and productivity caused by communication and process blocks between mariners and managers.

The AMC Search Human Factor/Elements training course is developed and led by Behavioural Scientist and professional safety management specialist [Dr. Ben Brooks](#) who works closely with an organisation to develop training that meets specific and identified objectives.

This could include addressing specific issues affecting safety and productivity caused by communication and process blocks between mariners and managers.

As the Human Factor/Elements training is developed in close consultation with clients, the duration of the finalised course might vary slightly, depending on the expected outcomes.

CONTENT

The training course delves into the following topics to ensure that sound resource management practices underpin everyday operations:

- Fatigue
- Stress
- Situational awareness
- Perception and sensing
- Decision making

PREREQUISITE

No prerequisites are required to participate in this training course.

OUTCOME

Participants who successfully complete this training receive an AMC Search Certificate of Completion.

COVID-19 VACCINATION

AMC Search (AMCS) is operating a COVID-Safe campus aligned with the protocols and procedures established by the University of Tasmania. The safety and wellbeing of staff, students and the broader community is an absolute priority for the University of Tasmania.

We strongly encourage everyone to remain up to date with their COVID-19 vaccinations but no longer require our students to be vaccinated to come to our university campuses, facilities or events.
